CAPABILITIES SHEET - January 2022

About Digital Video Group

We are a leading supplier of audio-video broadcast and production equipment in the Mid-Atlantic States. Our customers range from the Federal Government, Government Contractors, TV Stations, Production Facilities to state and local Government Agencies. Our services range from system design and consulting to installation, support and training. We can provide a complete system solution or individual components for system upgrades as needed.

Company Principal

Alex Martin - Founded DVG in 2003, and is responsible for the day to day management and operations of the company. In addition Mr Martin works closely with the leading manufacturers to facilitate the implementation of custom solutions in support of our customer needs.

DVG GSA Schedule Includes:

Broadcast Pix
 Cobalt
 Cue Script
 Fujinon

DVG BROADCAST INTEGRATED SYSTEMS

ACC/ Defense Media Activity, Fort Meade, MD (SEWP)

A modular Audio over IP Router System (AoIPRS), with Studio Consoles capable of audio and control routing while interfacing with Government Furnished Equipment (GFE) embedded Broadcast Electronics AudioVault automation systems is required at DMAR and DMA-HQ. The GFE Enterprise Radio Automation System (ERAS) employs Wheatstone's proprietary WheatNet Audio over Internet Protocol (AoIP) technology. To properly interface with this existing ERAS, a Wheatstone WheatNet routing and control system, studio consoles, and associated networking and operational hardware and software are required

Robert Meade, Senior Design Engineer 301-222-6665 robert.f.meade4.civ@mail.mil

October 2021 IN PROGRESS

Value: \$3.1M

Defense Media Activity, Fort Meade, MD

The project will upgrade the GFX Technical Infrastructure equipment at DMA HQ that will allow the existing Quality Check (QC) stations to support Ultra High Definition (UHD) video. The GFX Technical Infrastructure Equipment selected for this requirement will be items that meet or exceed the salient characteristics provided.

This project will include replacing current HD waveform monitors and broadcast video monitors with HD/12G-UHD capable equipment. A new routing system will also be included to support 12G-UHD signal distribution to these QC stations.

The project will include replacing twenty-five (25) current high definition (HD) quality control workstations with HD and 12G-UHD compatible Leader LV5600 waveform monitors and Sony PVM-X1800 broadcast quality video monitors.

A new Ross Ultrix UHD video routing switcher will be provided to route 12G-UHD signals from the existing Ross Video Ultrix UHD routing switcher – which that supports control room 3 - to the 25 quality control stations. The two routing switchers will interface via baseband 12G-UHD SDI production tieline cables. This will allow any source on the existing Ultrix router to be switched to any QC station through the new Ultrix monitoring router. A new router control system will allow the routers to be controlled as one system. Sixteen TrippLite B021-000-19-HD2 KVM pull out drawer KVM stations will also be provided.

Robert Meade, Senior Design Engineer 301-222-6665 robert.f.meade4.civ@mail.mil

September 2021

Value: \$1.1M IN PROGRESS

FGS/U.S. CENTCOM

This project is an expansion of the original system provide early 2021. The expansions adds the Expression XSTF-0001 "Xpression Studio - Flex Edition (SW Only) Which would be loaded on the XPN-4RU-12G-M8 4 Ru chassis.

- Fully Loaded Package Includes Creation & Playout Software only, Xpression Hardware or Customer supplied Hardware required
- for recommendations contact Ross Video
- Support for 1 Output Channel (fill+key) of UHD/4K or Up to 4 channels (fill+key) of 3G
- Unlimited Output Layers
- Support for up to 4 Video Input Channels
- Support for Virtual Preview Channel
- Support for Multiple Virtual Channels
- Support for SMPTE ST IP, HD-SDI or NDI---™ video I/O"

Danny Cox (AV3), Senior Design Engineer 240-633-8398 dan.cox@av3inc.com

August 2021

Value: \$74.6K IN PROGRESS

Broadcast Electronics/Defense Media Activity, Fort Meade

Digital Video Group will be integrating the AFN Audio Vault System at DMA Headquarters at Fort Meade, MD. DVG will be providing system cabling and installation services for this equipment in preparation for the installation of the Wheatstone Audio system received under a separate purchase order.

July 2021

Value: \$24.2K IN PROGRESS

Defense Media Activity, Fort Meade, MD

Broadcast Studio Production System Upgrade – provided design, engineering, and commissioning for the UHD upgrade of one of the facility's video production systems. The project consisted of four Hitachi SK-UHD4000 with Fujinon UHD lenses, four Cuescript 19" prompters and software, a Ross Carbonite Ultra production switch, a Ross 128x130 UHD routing switcher with UHD patch panels, a Ross UHD Xpression character generator, a Ross Tria+ UHD video server, Evertz reference generators, AJA KiPro Ultra 12G recorders, Leader UHD waveform monitors, Sony UHD monitors, and AJA FS4 frame synchronizers/converters. This system also provides tie line connections to the facilities 1028x1028 Utah Scientific HD router.

Robert Meade, Senior Design Engineer 301-222-6665 robert.f.meade4.civ@mail.mil

May 2021

Value: \$1.52M

AV3 CENTCOM MacDill AFB Tampa, Florida

Broadcast Studio Production and Postproduction System Upgrade – provided design, engineering, and commissioning for the UHD upgrade of the facility’s video production system. The system was designed to support HD and UHD production. System included two Hitachi SK-UHD4000 UHD studio cameras, Ross Cambot 600 Blackbird remote controlled PTZ system and pedestal, Ross Ultrix 2ME production switcher, Yamaha CL3 audio mixer, Chyron Character generator, Sony and TV Logic monitoring, Apantac UHD multiviewers, Analog Way scan converters, Leader waveform monitor, Evertz reference generator, Ross Ultrix 72x72 routing switcher, Clearcom Eclipse intercom, AJA frame sync and recorders, and TBC Consoles operators console. The postproduction system included four Apple Mac Pro edit workstations, a Facilis SAN, and various editing and graphics applications.

Danny Cox (AV3), Senior Design Engineer 240-633-8398 dan.cox@av3inc.com

April 2021

Value: \$600K

Tennessee Air National Guard, Knoxville, TN

Broadcast Production System Router and Multiviewer Upgrade – provided design, engineering, and installation for the upgrade of the facility’s video, audio, and production multiviewer system. System included Grass Valley Sirius 830 routing system, frames 288x288, populated 72x72 HD video, 120x120 AES audio, 3x3MADI, 32x32 stereo analog, and 10 internal multiviewers.

Ronald Waite, TEC-U 865-336-3898 ronald.waite.2@us.af.mil December 2020

Value: \$236K

Library of Congress, Washington DC

Broadcast Television Production System Upgrade – provided design, engineering, and installation for the in-house video production system. The project was the continuation of a multi-phase upgrade to the Library’s television production system started with the installation of a HD/UHD capable video router in 2019. The system was designed to support HD signals, but was wired to support 12G-SDI UHD signals for future upgrades. System included Ross Carbonite Ultra production switcher, Xpression Live character generator, Wheatstone L8 audio mixer and eight MADI IO blades, Sony monitoring, MultiDyne video and Ethernet fiber transceivers, and TBC operator’s console.

Tom Nauer, Production Coordinator 202-707-1183 tnau@loc.gov

November 2020

Value: \$272K

Department of Homeland Security, Washington DC

Broadcast Insert Television Studio – provided design, engineering, and installation for single camera broadcast studio for use by senior department administration to interact with broadcast outlets. System included Hitachi Z-HD5500 camera, Miller pedestal, Cuescript prompter and talent monitors, Sony lavalier microphones, Ross Carbonite Black Solo switcher, Xpression Live character generator, Tascam audio mixer, Sony monitoring, AJA frame sync and recorders, LiveU LU600 transmission system, and IWD operator’s console.

Susanne DeSantis, Senior Project Manager 202-804-5778 Susanne.DeSantis@GDIT.com

August 2020

Value: \$164K

Library of Congress, Washington DC

Large Video Routing Switcher Installation – Ross Ultrix HD/4K video router populated 134x134, redundant reference system, 12G rated patch panels, system wired for 12G SDI.

U.S. Embassy Bogota – Bogota, Columbia

CueScript CSF15M Lightweight prompter system, CSPROD prompting software package, CSMAC CueiT mac OS License.

August 2021

Value: 12K

U.S. Library of Congress – Washington, DC

Two Cue Script Prompting Systems one for Studio and One for Field Use, Studio system consists of the CSV2P1pL on camera prompter system, CSTM22 talent monitor, weights and riser plate. The Field System consists of the CSV2P17C on camera prompting system, field case, weights and riser plate.

August 2021

Value: \$20.7K

City of Annapolis – Annapolis, MD

System Consists of LiveU LU800-PRO-HD Encoder, LU10-SV-1UL04-\$K rackmount 4K HEVX Decoder Server, Anton Bauer batteries, battery mount and miscellaneous cables.

August 2021

Value: 24.7K

U.S. Los Alamos National Laboratory – Los Alamos, NM

System Consists of Telestream V-LS-G5 Lightspeed Server, V-XCODE Transcode Software, Vantage Analysis Software, Vantage Post Producer Software and Telestream system support.

August 2021

Value: \$57K

Consolidated Nuclear Solutions/U.S. DOE – Aiken, GA

Telestream system support for Hardware and software for one year.

August 2021

Value 42K

U.S. DMA – Fort Meade, MD

Upgrade and replace existing broadcast Audio System for Studio's using Sennheiser wireless system. Add additional iHSEKVM module to the existing system and add one additional talent monitor to the studio for their teleprompter system.

July 2021

Value 60K

Broadcast Electronics – DMA Fort Meade, MD

Provide integration support to install new Broadcast Electronics solution in the Tech Core of the studio.

July 2021

Value 24K

FGS/U.S. CENTCOM, Tampa FL

System spares for Broadcast system that was installed earlier in the year. Spares included Apanatc multi-viewer, AJA and Evertz signal conversion gear. Spares for the Ross signal processing platform and spare Facilis boards for there Storage System.

July 2021

Value \$21K

U.S. Navy Naval Surface Warfare Center, Crane, IN

Additional Telemetrys PT-LP-S5 Pan/Tilt Head Bundle and PS-PACK-48-160W Power supply.

July 2021

Value \$19K

U.S. Air Force – 3rd AV Squadron Lackland AFB, TX

Live U Support Contract for LU-600-HD and new yearly Data Contract.

July 2021

Value: \$8K

General Dynamics at DHS Camp Springs, MD

Yearly Support contract for Live U LU600-HD, LU10-SV-VRL0D Server. Also included is there Matrix contribution platform and yearly Data Plan with priority Service.

July 2021

Value: \$16K

U.S. Federal Judicial Center – Washington DC

Replacement Frames and cards for their existing system that has run EOL. Includes 15 new frames

and power supplies. There was also a combination of new audio and video cards, plus video conversion modules and assorted backplanes to fill the frames.

Jul 2021

Value 39K

Sonalysts – U.S. Air Force Beale AFB, California

Winsted Consoles for Operations Center. Consists of 14 ESOC 60 inch Consoles, with Comfort Edge, 2 – L Shaped ESOC 68.76 Inch consoles with Comfort Edge, and 1 ESOC 48 Inch Wide Console with Comfort Edge and 19 Chairs and onsite installation by Winsted.

June 2021

Value: \$110K

Innerspace Architecture – U.S. Air Force Eglin AFB, FL

Winsted Consoles for Training areas T12, T22, T15 and area W5.

June 2021

Value: \$45K

Defense Media Activity - Riverside AFN Television

Telestream Platinum Support Contract for AFN Systems Worldwide, Systems located at Yakota Japan, Sembach FRG, and AFN Broadcast Center.

June 2021

Value: \$179K

Defense Media Activity - Riverside - Hill AFB, UT

LiveU Support Contract for Air Force Office of Public Affairs, Includes 4 LU600 Data bridge licenses, 4 LU-SLA support and software updates, 4 support and software updates Xtender, 2 Dedicated cloud based LU2000 virtual servers, and 4 50GB data plans.

May 2021

Value: \$69K

U.S. Architect of the Capitol (AOC) Washington DC

System Wide Upgrade of APEX Hardware in Support of US Senate and US House of Reps, includes 2 Apex 3000 chassis and assortment of APEX cards for 1 QAM Building upgrade.

May 2021

Value: \$97K

ACC U.S. Federal Judicial Center Washington, DC (SEWP)

Purchase of a new Utah Scientific 400 Series 2 router 288 frame populated 144x228 3G HD/SDI, 24x24 AES Audio and 4 x 4 HDMI and 4 x4 Composite analog video. A Utah SC-4E control system, SFP's, and a Utah 400 Data router 64 port bi-directional.

Sep 2020

Value: \$149K

U.S. Federal Judicial Center Washington DC

Hitachi Z-HD5500 HDTV Portable camera head (4), Hitachi CU-HD1300 fiber camera control unit (4), CA-HF-1300U fiber-optic cable adapter (4).
